3/9/77

- U.S. Attorney has filed suit, at the request of EPA, to halt production and discharge of carbon tetrachloride by FMC Corporation in S. Charleston, until an independent investigation is made of the facility.
- I am pleased by the the action EPA has taken, because it is overdue.
- The House Public Works Committee has also begun an investigation into the matter, and I have discussed the situation with Congressman Bo Ginn, Chairman of the Investigation Subcommittee.
