This is Congressman Nick Rahall.

After some personal investigation, I have called upon both sides in the N & W Railroad strike to intensify their efforts for a negotiated settlement, or call in federal mediators.

With almost 40,000 persons out of work,,<sup>in</sup> this region of the country, this strike is having a severe economic impact. Southern West Virginia just cannot stand the ramifications of another long term strike.

I also believe that a congressional investigation ~~may~~ <sup>is</sup> necessary to see if mutual aid pacts, a federal assistance program for railroads, is being used indirectly to aid management in this strike.
