Rahall Announces Economic Development Grant to Marshall

Washington, D.C. -- Fourth District Rep. Nick Rahall (D-WV) today announced that Marshall University has been awarded a \$100,000 grant by the Economic Development Administration.

"I am pleased that Marshall has been awarded this grant to provide technical assistance to small businesses and other organizations engaged in economic development activities in our area," Rep. Rahall said. "E.D.A. programs at Marshall, especially the Center for Regional Progress have been a great success in this region and is a major reason why I have fought so hard in Congress to keep the E.D.A. funded at adequate levels."

Funding for the E.D.A., along with the Appalachian Regional Commission, was approved by the House of Representatives recently.
