

Congressional

Coal Group

U.S. House of Representatives - Nick Rahall, Chairman, 343 Cannon House Office Bldg.

January 1985

Dear Colleague:

I would like to take this opportunity to invite you to join the Congressional Coal Group.

The Coal Group is an informal, bipartisan organization of Representatives who are interested in making coal a more dominant force in our energy future. The primary purpose of the Group is the dissemination of information on issues facing the Congress which have an impact on coal. During the 98th Congress, for example, the 57 Member Coal Group conducted a number of seminars, meetings and hearings on issues ranging from 'acid rain' to railroad coal transportation. We also provided a number of issue reports to the membership which are helpful during their work in Washington and in their Districts.

There is no cost associated with joining the Congressional Coal Group. As its chairman, I hope you will join with us in our mission to enlighten, inform and to speak out on issues of importance to coal and our national energy policy. Please take the time to fill out the form below and return it to my office, or call Jim Zoia at x53452.

Sincerely,

NICK J. RAHALL, II
Member of Congress

Membership During the 98th Congress:

Alabama: Bevill, Shelby, Erdreich and Flippo **Alaska:** Young
