RAHALL ANNOUNCES STATE EPA GRANT

WASHINGTON D.C. - U.S. Rep. Nick Rahall (D-W.Va.), today announced the U.S. Environmental Protection Agency has provided the West Virginia Department of Natural Resources a continuing grant for \$793,506. The monies will come from the Construction Management Assistance Program and will be used for the management of delegated portions of the EPA Construction Grants Program.

"These funds will assist the Department of Natural Resources in its administration of EPA Grants. This is essential to the Department's role in the EPA's grant program, and I am delighted this grant is continuing to be funded." Rahall said.
