RAHALL ANNOUNCES \$150,000 FOR MONTGOMERY GENERAL HOSPITAL

WASHINGTON, DC -- U.S. Rep. Nick Rahall (D-WV) announced today that the Department of Health and Human Services awarded a Rural Health Care Transition Grant of \$150,000 to Montgomery General Hospital. Montgomery General will receive this funding in \$50,000 increments over the next three years.

"I have worked to help Montgomery General get this funding to improve its capability to provide quality health care," said Rahall. Management improvements and market studies will be funded with this grant. Also, this funding will support enhanced emergency care and outpatient services.

6325 Security Boulevard
Baltimore, MD 21207

The Honorable Nick J. Rahall II
House of Representatives
Washington, D.C. 20515-4804

Dear Mr. Rahall:

Earlier this year, you wrote us concerning the Rural Health Care Transition Grants Program. I am pleased to announce that Montgomery General Hospital from the 3rd congressional district in the State of West Virginia received a new 1993 award under this grant program.

This grant program will support a variety of innovative projects to strengthen the capability of small rural hospitals and their communities to provide high quality care to Medicare beneficiaries. Hospitals receiving awards requested funds to support activities in the general areas of enhancing outpatient and/or emergency services, recruiting of health professionals, and development of alternative service delivery systems (including rural health care networks) to more effectively provide care.

Nationally, 394 applications were received from eligible rural hospitals. These applications were reviewed by expert panelists and scored for technical merit. The panelists' recommendations were taken into consideration in making our final decisions.

There is approximately \$22.8 million available in fiscal year (FY) 1993 for the combined first year funding of new projects and for second and third year funding for projects awarded in FY 1991 and FY 1992. A total of 179 new grants were awarded. Enclosed is a listing of the new FY 1993 awards.

I appreciate your interest in our research and demonstration program.

Sincerely,

Joseph R. Antos, Ph.D.

Director

Office of Research and Demonstrations

Enclosure
