EPA FUNDS FOR BRAMWELL & STATE WATER RESOURCES

BECKLEY, WV -- U.S. Rep. Nick Rahall (D-WV) announced today that the U.S. Environmental Protection Agency awarded \$602,820 to the Bramwell Public Service District and \$400,000 to the West Virginia Office of Water Resources.

Based on the receipt of actual contract bids, the EPA has awarded \$602,820 to the Bramwell Public Service District to supplement the original \$3.15 million grant for the construction of a wastewater treatment plant. "I am please to see that the Bramwell project is moving along smoothly," said Rahall, who, for nearly five years, has been working closely with Bramwell PSD to get the necessary Federal funding.

The grant received by West Virginia's Office of Water Resources is for its Construction Management Assistance Program which handles the day to day matters of managing the construction grant program. "This grant funds a transfer of authority to the State in order to eliminate unnecessary duplicative reviews and functions," said Rahall.

Rahall is a senior member of the House Public Works and Transportation Committee and the Water Resources Subcommittee.
