RAHALL ANNOUNCES EDA GRANT AWARD FOR
CEREDO INDUSTRIAL PARK

WASHINGTON, DC -- U. S. Rep. Nick Rahall (D-W.Va.) today announced the U.S. Economic Development Administration has awarded the Town of Ceredo a \$500,000 grant to extend water and wastewater lines to the site of a future industrial park to be located near Tri-State Airport.

"This completes the first step in developing the industrial park. I am pleased with EDA's commitment to making the park a reality. The grant will allow the Town to make use of a previously approved U.S. EPA grant of \$500,000." Rahall said. "I have been working with EDA for the past eight months urging them to fund this project."

Because of its proximity to the airport, the site will afford industries direct access to air transportation facilities.
