RAHALL ANNOUNCES FEDERAL GRANTS

WASHINGTON, DC -- U.S. Rep. Nick Rahall (D-WV) announced today that the state of West Virginia has been awarded grants totaling over \$800,000 from the U.S. Environmental Protection Agency (EPA) and the U.S. Department of the Interior.

The West Virginia Department of Culture and History has received a \$425,011 grant from the Historic Preservation Fund.

The EPA has awarded \$243,691 to the West Virginia Department of Health and Human Resources for its public water supervision program and \$144,600 to the West Virginia Division of Environmental Protection for its underground injection control program.

"Federal grants like these help maintain the quality of life that we all enjoy in West Virginia," said Rahall, who is a senior member of the House Public Works Committee and the Natural Resources Committee.

United States Department of the Interior

OFFICE OF THE SECRETARY WASHINGTON, D.C. 20240

WASHINGTON OFFICE

JAN 25 1994

We are pleased to inform you that under provisions of the National Historic Preservation Act of 1966 (80 Stat. 915), as amended, the National Park Service has approved a matching grant-in-aid in your State, as described by the enclosed form. The Historic Preservation Fund grant program is administered by the National Park Service to assist the States, the District of Columbia, the Territories, and the National Trust for Historic Preservation in the survey and protection of our country's architectural, cultural and historical heritage.

The funds are derived from the Historic Preservation Fund created by the National Historic Preservation Act, and awarded according to a formula apportionment made by the Secretary of the Interior. The grant will be matched by State or local money, or in-kind contributions. Expenditures must be made in accordance with an approved State Historic Preservation Plan as required by the authorizing legislation.

Sincerely,

George T. Frankle J.

George T. Frampton, Jr. Assistant Secretary for Fish and Wildlife and Parks
