***HUNTINGTON HOMELESS TO GET BETTER HEALTH CARE***

WASHINGTON, D.C. -- U.S. Rep. Nick Rahall (D-W.Va.) announced today that the U.S. Department of Health and Human Services has awarded Valley Health Systems, Inc. of Huntington \$52,585.

"Often times, homeless individuals have special health care needs," said Rahall. "This type of funding will ensure that these special needs are met."

The new funding will be used to offer more competitive salaries in order to recruit and retain health care personnel who provide services for homeless individuals.
