Ona Firm To Receive Federal Contract

WASHINGTON, D.C. -- U.S. Rep. Nick Rahall (D-W.Va.) today announced that Bhatt Contracting Company of Ona has been awarded a contract from the U.S. Army Corps of Engineers in the estimated amount of \$243,380.43 to remove asbestos at the West Virginia Ordnance Site.

"I am pleased that a West Virginia company was successful in bidding on a Corps of Engineers contract. As in this case when West Virginians help West Virginians it can lead to sustained jobs and a safer environment for our State's citizens." Rahall said.

Rahall is a senior ranking member of the House Public Works and Transportation Committee which has jurisdiction over U.S. Army Corps of Engineers programs.
