MORE FUNDS FLOW INTO WEST VIRGINIA

WASHINGTON, D.C. -- U.S. Rep. Nick Rahall (D-W.Va.) announced today that the U.S. Environmental Protection has awarded the West Virginia Department of Environmental Protection \$420,000 to two separate programs.

\$400,000 will go to the construction management program. This program ensures that the State and federal governments do not duplicate services and procedures.

\$20,000 is earmarked for the clean lakes program. This program is designed to help facilitate the restoration of lakes in West Virginia.

Rahall, who has long been an advocate of environmentally friendly legislation, said, "We have come a long way in restoring our rivers and lakes but we still have a ways to go." "I will continue to work hard to ensure that our children will have clean rivers and lakes to enjoy."
