RAHALL ANNOUNCES WEST VIRGINIA GRANT

WASHINGTON, DC -- U.S. Rep. Nick Rahall (D-W.Va.) today announced the U.S. Department of Justice has awarded the West Virginia Department of Public Safety a grant of \$249,803.00 for a program to redesign its Uniform Crime Reporting procedures.

The funds will be used to design a standardized incident report, train local agency personnel in the new system, test the system in pilot agencies, and provide test data to the FBI.

"These funds will promote great efficiency within our State Program and will facilitate our Trooper's ability to match information with the FBI's files, leading ultimately to the resolution of criminal cases. I commend the Department for applying for and receiving these federal funds." Rahall said.
