VALLEY HEALTH SYSTEMS RECEIVES \$100,000 IN FEDERAL FUNDS

WASHINGTON, D.C. -- U.S. Rep. Nick Rahall (D-WV) today announced that Valley Health Systems, Inc. of Huntington has been awarded \$100,583 in federal funding from the Department of Health and Human Services.

The funding will be used for administrative costs, equipment, and personal services.

"Valley Health Systems is an important part of the Huntington community's health service organization," said Rahall. "We need to see that they receive the funding needed to perform their critical role in community health care."
