Dear Congressman Staggers:

I wish to express my appreciation and
thanks for your taking time on Wednesday to
talk about HR 11031.

I hope that in your continued committee
hearings on HR 11031, that some plan "TO SAVE
THE WASTE" of fuel, would be devised, before
imposing to great a hardship and inconvenience
upon our industry and on our citizens; and let
the waste of fuel continue.

With warm personal regards, I am

Sincerely,
