Dear Mrs. Linton:

Thank you very much for your letter of recent date relative to the present "energy crisis."

I appreciate your writing me and am certainly sorry to learn of your employment difficulties as a result of the gasoline shortage.

As you may be aware, the Conference Report to accompany S. 2589, the Emergency Energy Act, was passed by the Senate last week; and the House is expected to take action on the bill this week. You may depend on my continued efforts toward the passage of fair and equitable legislation for all.

With best wishes and kind regards, I am

Sincerely yours,

HARLEY O. STAGGERS

Washington, D.C.

Dear Sir;

Due to this energy crisis, I haven't any job and very little gas. Yet I see people at service stations filling barrels and a sign hanging on the pumps "No Gas". I would rather see rationing and everyone getting their share of gas, than a few people getting it all. And I have talked to people in this area who feel the same. I feel Federal Energy Office should give the American people enough gas to get to work.

Right now I am laid off along with about 1500 of my fellow workers due to the trucks

protest. The Company, Meetinghouse  
Electric Corp. Cannot get the  
material it needs to continue  
work.

The average tax paying  
American is not getting a fair  
deal on this energy situation.

Sincerely  
Jean Linton
