Congress of the United States  
House of Representatives

Committee on Interstate and Foreign Commerce  
Room 2125, Rayburn House Office Building  
Washington, D.C. 20515

February 5, 1976

W. E. WILLIAMSON, CLERK

Mr. Robert A. Sanders  
Plant Manager  
Corning Glass Works  
Martinsburg, West Virginia 25401

Dear Bob:

This will acknowledge your letter of February 2 advising of your opposition to H. R. 9464, the Natural Gas Emergency Act of 1975, as proposed by Congressman Dingell. Employees of Corning Glass Works Plant in Martinsburg have also sent me the communications furnished them by your office.

As I have told you so many times, Bob, I know full well that Corning and all of the glass industries depend upon natural gas. I will continue doing my utmost to protect the manufacturing industries in West Virginia and across the land - especially the glass industry. I believe we are getting out a bill which will assure a gas supply to glass companies as well as the necessary natural gas needed in over 40 million homes in our Nation who do use this type of fuel.

You and the employees of Corning as well as all of the glass industries, may depend on my continued efforts and cooperation.

Again, thanking you for writing and with every good wish and kind personal regards to you, the employees of Corning Glass Works, and their families, I am

Sincerely yours,

  
HARLEY O. STAGGERS  
Chairman
