December 10, 1943

Senator Mead is chairman of the sub-committee on transportation. He hopes to be able to have this in final print tomorrow night for release to the newspapers on Monday for the following Wednesday, when he wants to submit the report to the Senate. He has sent copies of this report to all the agencies concerned for their comments and has asked that they have their comments back by tomorrow noon. He would also like to have any comments from the Senators on the committee at the same time.

George Meader, Assistant Counsel for the Truman Committee, on Branch 49, can give you a brief synopsis of this report in three minutes on the phone.
