MEMORANDUM FOR MEMBERS OF THE COMMITTEE
INVESTIGATING THE NATIONAL DEFENSE PROGRAM:

→ A footnote has been inserted in Galley 16 DDB, quoting the President's announcement to the effect that he will reorganize SPAB along the line referred to in the Report.

→ Similar reference is made in the copper, lead and zinc section on Galley 25 DDB to the effect that after the Report was sent to the printer, but before it was issued, the Office of Production Management announced that it had adopted the policy of fixing a secondary price for copper, lead and zinc, to be paid only for increases in production.

Mr. Walter Hehmeyer of the Committee staff will contact the secretaries of each of the Members of the Committee on Thursday to obtain any additional changes which they wish to have made in the Report. He can be reached at extension 1253 in room 160.
