Honorable Hugh A. Fulton
National Defense Investigating Committee
Senate Office Building
Washington, D. C.

Dear Hugh:

I find in my file after getting down here a letter from P. W. McDonough, McDonough Steel Company, Oakland, California, concerning liberty ships. Please check into it and make him an appropriate answer. If you remember the evidence produced in Los Angeles was to the effect that this work could not be done as suggested by him, and that a sealing on a ship is almost an impossibility.

Sincerely,

HMK:1

Enc.
