Miled States Senate

SPECIAL COMMITTEE INVESTIGATING
THE NATIONAL DEFENSE PROGRAM

September 11, 1944

My John &

MEMORANDUM

To: Members of the Committee

The March of Time has advised the Committee that they are in the course of making a newsreel dealing with the disposal of surplus properties, and that they would like to include in this newsreel some material on the Committee's trip to the various depots. For this purpose they have asked whether they may have a staff member accompany the Committee for part of the trip, visiting several depots to acquire background material and then have a camera crew meet the Committee at one stop to take pictures.

The March of Time would arrange its own clearance with the War and Navy Departments. This Committee would not request them to make arrangements of any type.

Senator Mead has stated that he has no objection to this suggestion. Would you kindly indicate whether or not you would object to the arrangement?

RUDOLPH HALLEY Chief Counsel
