Dear Senator:

As suggested at the time of your visit here yesterday, we are forwarding herewith four copies of each of the following charts:

1. The labor turnover since January 1942 to date adjusted to the basis of the annual equivalent rate for both production and modification operations.
2. Absenteeism in all productive departments of both manufacturing and modification plants.
3. The average direct labor hours per ship from the start of modification operations to date.

It was a pleasure to have you and your committee with us on Friday, and we will look forward to another visit at your convenience.

With kindest regards,
